RATED 4.0 Theme- As we all know barbeque nation has always served us amazing food through their buffets. This time it was Mango mania festival which is going on till 15th of May so the visit was must.

Food and beverage- Mango can be easily said as king of fruits so when it's a summer time we always get the fresh mangoes. I can call myself lucky enough as stays in western coast of Indian where maximum mango production happens and we get really different varieties of mangoes. BBQ nation always has surprised me with the variety of food they serve. It's not limited to the fun of BBQ skewers which comes on the table; they have gone many steps ahead in which they keep the live counters and lengthy buffets. Mango mania was all about cooking with mango. The marinations of the bbq skewers were really new and I never tried them before for sure. Starting from welcome drinks like aam panha till desserts it was mango fever. Few of the starters which we tried were Raw mango stuffed mushrooms, Chili garlic prawns (must try), Amchuri pineapple. Starters were really impressive as had very good marinations on them. They had a live counter on which you can choose your meat options which they will sauté in front of you. Mango pani puri was a must try dish. They had honey mango which was I felt a Dish of the day. Mango cubes tossed in sesame seeds along with honey, nice and warm had sweetish and tangy taste of honey and mango. Main course had few of the mango infused dishes like mango peas pulav, veg main courses. When we moved on the desserts by that time we were almost full. Dessert section had many mango infused dishes like mango pie. Amrakhand, mango ice cream, freshly cut mangoes etc. desserts I found very sweet to be honest. Mango kulfi is a must try for sure.

To sum up- Totally enjoyed Mango- Mania festival of bbq nation, strongly recommend you call that if you are mango lover and want to try some uncommon food related to mango then this festival is a must visit. Always love barbeque nation for their humble and caring service staff. Mango lovers don't miss this festival which is their till 15th of May.
